Cats Protection Harrogate and District Branch - March 2024

Safi

This month we thought we would introduce you to beautiful Safi, one of our Branch Leader Val's cats. Safi came to Val from one of the veterinary nurses at Forest House Vets, who's cat had just had kittens.

Val explained: "We decided upon Safi as she looked as if she had a black moustache. We gave her the name Safi as we used to go to a very small Greek island called Tilos for our summer holidays. We had a favourite taverna on the island called Sofia's. We also knew of a famous female Greek poet called Sappho, so we combined the names and called our new kitten Safi. In fact, we were on the beach on Tilos on August 4th 2014, when the veterinary nurse rang to tell us the kittens had been born. Safi loved our previous cat-Daisy and when she died only aged 11, Safi needed another cat to befriend, as our other cat Lola was a bit of a loner. When we got Pickle two years ago Safi and Pickle immediately became best friends and they are often playing together in the garden and they love play fighting."

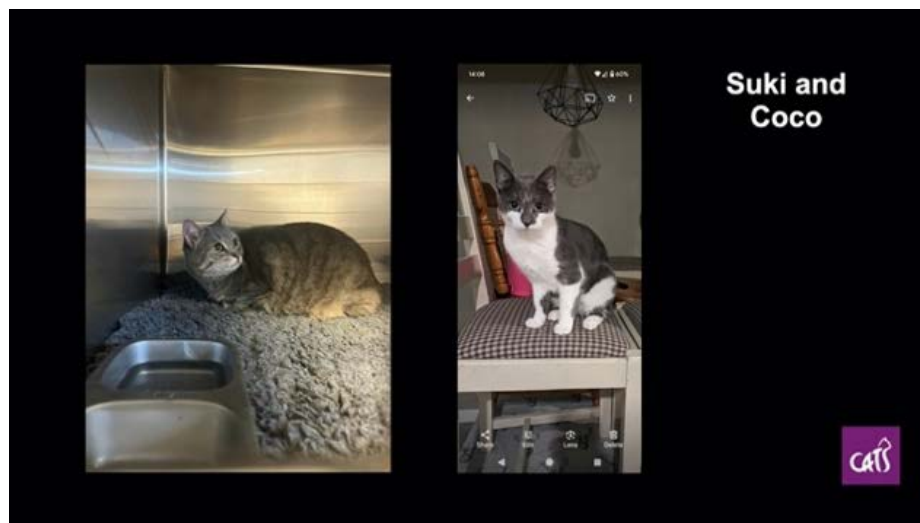

The photographs above show Safi as a kitten by herself and also with her brother (black) and sister Luna (black and white) at the vets when they were 8 weeks old and now by herself and also with best friend Pickle.

Rehoming and Welfare News

Kittens Luna and Loki, who were rehomed in December have now settled in well to their new home and we have been delighted to see photographs of them, kindly sent by their new owners. They look they have grown lots too and I am sure are having are having lots of fun and adventures together.

Since our last newsletter we have rehomed Milo, after he was in our foster care and also two cats Suki and Coco with direct rehoming.

Until next time, thank you for all that you do for Cats Protection.
