

FEBREZE® AIR FRESHENER RECYCLING PROGRAMME

ACCEPTED WASTE

All brands of air freshener aerosols

More than 96% of local authorities recycle aerosols through kerbside collections or through recycling banks. Please visit your local council website to find out if you can recycle aerosols locally. If these options are not available to you, or you have more than 5 miles to reach the recycling bank, you can drop your aerosols off in one of our Febreze Air Freshener Recycling Programme drums, always making sure that your aerosols are empty first.

Waste that is NOT accepted:

- Deodorant aerosols
- Body spray aerosols
- Cleaning aerosols (such as disinfectants or outdoor cleaning)
- Suncare aerosols
