

WHAT WE ACHIEVED TOGETHER IN 2022

Thanks to your support, we can be there for so many cats and cat owners who need our help.

Your kindness **enabled us to help**

144,000

cats and kittens – that's around **400** a day!

We **neutered**

132,000

cats to keep them **happy and healthy** and prevent unwanted litters of kittens.

We found **new homes** for

30,000

cats and helped **900** cats stay with their loving owners.

900

cat welfare talks were delivered to schools and community groups, spreading the word about **good cat care**.

2,000

cats were **reunited** with their families and we **microchipped 43,000** owned cats and cats we rehomed to help them find their way home.

We handled

143,000

enquiries from the public, **providing expert advice** on a range of cat care topics.

101

families fleeing domestic abuse were helped by our **Paws Protect cat fostering service**.

9,200

volunteers gave their dedication, skills and time to help cats across the UK.

THANK YOU,

on behalf of the cats, for everything you helped make possible in 2022!
