

WHAT WE ACHIEVED TOGETHER IN 2021

Despite the ongoing challenges of the COVID-19 pandemic, you helped us turn the lives of so many cats around in 2021.

- > Your support enabled us to help 137,000 cats and kittens – that's around 375 a day! We found new homes for 29,000 cats, creating purrfect matches and lifelong friendships.

- > 2,000 cats were reunited with their owners and, after years of our campaigning, the government has committed to making microchipping of pet cats compulsory.

- > Over 1,000 cat welfare talks were delivered to schools and community groups, spreading the word about good cat care.

- > We handled 123,000 enquiries from the public, providing expert advice on a range of cat care topics. 10,000 volunteers gave their dedication, skills and time to help cats across the UK.

- > Even though access to neutering continued to be limited, we still managed to neuter 116,000 cats to keep them happy and healthy.

THANK YOU,
on behalf of the cats, for everything
you helped make possible in 2021!
